HPE GreenLake

HPE edge-to-cloud adoption framework
People domain

Strategy and governance	Innovation
People	Operations
Data	Applications
DevOps	Security

The people domain is critical for driving real change in the organization. Building capability in this domain will help you:

- Assess the impact of the change
- Ensure leadership and stakeholder engagement
- Equip the organization with a transformation mindset
- Develop a culture of continuous learning and improvement
- Provide your workforce with the right skills for edge-to-cloud transformation
- Attract new talent and keep existing ones on board
